

Series 140-15009

Printable Adhesive, Solvent Based

Series 140-15009 is a non-permanent adhesive used for transfer labels e.g. for producing self adhesive labels or films which don't need high mechanical resistance and should be removed easily again.

The ready to use adhesive does not need any thinners. The optimum temperature for applying the adhesive is between 20-28°C.

The thickness of the applied film can be controlled with mesh size. The adhesive should be completely dried before covering with protection film e.g. silicone paper.
